# "THE BARTERED BRIDE" IS HEARD AGAIN

Carl Joern Reappears in Role of Hans and Mme. Destinn as Marie.

SMETANA'S MUSIC PLEASES The Ballet Well Done and the Minor Parts Treated With Excellent Skill.

Smetana's comic opera, "The Bartered Reide," was performed at the Metropolitan Opera House last evening for the first time this season. The work was produced here in the season of 1908og and had six representations. Last winter it was given four times. These records stand in sharp contrast with those of the early years of opera in German at the Metropolitan Opera House.

In one of those seasons Goldmark's "Queen of Sheba" was sung fifteen times. In the next season it was heard four times and it was speedily retired from the repertory. It remained in silence till Heinrich Conried revived it. Mr. Gatti-Casazza's judicious policy has prevented the keeping of any one work before the public till interest was entirely killed.

The method of the present impresario has been to give an opera on each subscription night and at one matines and to add in special instances one or two extra performances. Thus when a work is given as many as six times in one season we may accept that as a pretty certain proof that it is popular.

Meanwhile Mr. Gatti-Casazza's method insures the freshening up of the repertory from time to time, as it needs it The present season has not been barren of comic operas, and two new ones, "Le Donne Curiose" and "Versiegelt." have been introduced to the notice of local operagoers. The revival of "The Bartered Bride" is naturally coincident with the return to the company of Carl Jörn, the tenor, who sings the röle of Hans. The revival seemed to please the consid-

erable audience which was present. Doubtless to many of the hearers the work was new. These must have obtained great enjoyment, for the character of the music is altogether different from that found in any of the other scores used in

the Metropolitan repertory.

The composer well knew that inorder to make his music faithful to his story he must go to the soil of Bohemia. His melodies are in the manner of the Bohemian folk song, and hence they sound not in the least like the German and Italian in the least like the German and Italian music heard for the most part at the opera house. Folk song ideals are followed in "Hansel und Gretel" and in "Cavalleria Rusticana," and operagoers well know what a gulf separates these. But an equally wide gulf lies between them and "Prodana Nevesta," as "The Bartered Bride" is called in its original tongue. Humperdinck has Wagnerized

tongue. Humperdinck has Wagnerized German folk ideas and Mascagni has diressed Sicilian themes in the costumes of the Teatro San Carlo. Of the oil and wine of that good humor which lies close to the earth there is more in "The Bartered Bride" than in Humperdinck's wonder-fully sophisticated creation. The latter s more elaborate art; the former is more

good things of "The Bartered Bride brought joy last night. These do not all belong to the lovers. There are the ballet, with all the leaping dancers, led by Ottokar Bartik: Wenzel, the stut-terer, inimitably impersonated by Albert Reiss; Springer, the circus man, made a Reiss; Springer, the circus man, made a striking piece of humorous characterization by Julius Bayer, and Kezal, the matchmaker, admirably done by Mr. Bobert Adamson, secretary to the Didur. So if Mr. Jörn was not in his best voice, and Mme. Destinn, as Marie, was somewhat tired after the previous night's and that before going to his home in "Aida," these were but small blemishes on an otherwise good performance. Bride of Englishman.

Local cabaret circles have been discussing for the last three days a new sensation. This time it is not a new dance, but a disappearance. In brief, the comely young French woman who has been the partner of Maurice in the cabaret dances at Louis Martin's and, since the show opened, in the cabaret scene at "Over the River," is gone from those accustomed haunts, and those who profess to know say she has been married to a rich young Englishman who has been spending some time in New York.

Of course, Maurice has a new partner, Miss Florence Walton, who, it is said, has been dancing in Europe, but one hears that M. Maurice has been much vexed over the disappearance of Mlle. Madeleine d'Harville, who was known to the cabaret-ters as "Madelaine," and whose short, golden locks, graceful gymnastics and gyrations have contributed so much to the popularity of what is called "intimate dancing" in some of the restaurants.

Mile. d'Harville's going was rather sudden, and few were let into her confidence. One explanation of her absence was that she had suddenly sailed for Paris. However, those who know her say that she accepted an engagement to get married and that she is now in Chicago on her honeymoon. Another report is that the honeymoon is being spent in Atlantic City and that bookings have been made on a steamer sailing for England next Wednesday.

For several weeks past two Englishmen have been frequent patrons of the Globe Theatre, where Madeleine and Maurice have been doing the tango and other Latinized or Barbary Coast versions of ragtime. Often they would occupy a box together. Later, it is said they sat in different parts of the theatre. Mile. d'Harville's place at the theatre was taken by Miss Walton on Wednesday night.

One of the two Englishmen disappeared from his haunts about town on Wednesday. He is Arnold Mander, who is said to be wealthy. He has been putting up at the Ritz-Carlton, but the management yesterday said it was not known at the hotel where Mr. Mander had gone, or when he would be back. several weeks past two English-

# MAURICE VEXED PARTNER GONE H. E. HUNTINGTON BUYS A GAINSBOROUGH PORTRAIT

A Half Length Painting of Anne Luttrell, Duchess of Cumberland, the Purchase.

THE PRICE NOT GIVEN OUT

Picture Once Offered to Charles Wertheimer for 20,000 Pounds. Though.

Henry E. Huntington of New York and California, a nephew of Collis Huntington and the buyer of hundreds of thousands of dollars worth of books at the Hoe sales, has acquired for his private collection a half length portrait of Anne Luttrell, Duchess of Cumberland, by Thomas Gainsborough, the English master. The painting, which has been in this country but a short time, was secured by Mr Huntington through Messrs. Scott & Fowles of this city, who imported the portrait. The price is not given

The portrait is at present in Mr. Huntington's apartments at the Metropolitan Club and may eventually go to his home near Los Angeles, Cal. Those who have seen the work pronounce it an unusually beautiful example of the English artist's

It is a painting with an interesting history. Formerly in the collection of Lord Wenlock, it was displayed at the Franco-British exhibition of masterpieces in London in 1908 and was one of four examples by Gainsborough shown on this occasion. It was at one time in the collection of Charles Wertheimer, to whom it was offered for £20,000.

The story goes that when Mr. Wertheimer acquired the portrait he was sus-picious that it had been repainted in some manner and he asked a restorer to remove what he called a superficial layer of paint. The restorer refused to do this at first, but after some fencing agreed to undertake the task and the result was that the painting appeared as originally executed by Gainsborough. It had been retouched by some unknown artist to meet the change of fashion in relation to the mode of headdress.

The Duchess of Cumberland was appar-

ently a favorite subject with Gains-borough, for according to the chroniclers he painted seven portraits of her. She was the daughter of the Earl of Car-

hampton.

A reproduction of the portrait appeared not long ago in the London Sphere. In an article accompanying the picture Paul G. Konody says: "Here was indeed Gainsborough's feathery touch and the magic of his cool silvery palette at the time when his genius was bearing its richest and most delicious fruit."

Mr. Huntington already owns several other notable examples of Gainsborough's

The park fêtes are the culmination of the season, and since they were originated five years ago have become one of the most picturesque features of New York life. Special costumes are not allowed on these occasions somewhat to the regret of spectators. But the directors of the girls' branch are firm in their decision to keep the affairs of such a nature that even though the public does see the participants it shall see them as a mass in which individuals are not conspicuous.
